

## Emergency Disaster Grant Program

**IMPORTANT NOTE:** *Due to the unique and widespread nature of recent disasters and the resulting unprecedented need, the ADA Foundation Emergency Disaster Grants Program is currently on hold as they continue to raise funds in order to help as many people as possible. Incoming applications will be held and processed as funds become available. Applicants will be contacted with updates as information becomes available. The FDA Foundation portion of the Emergency Disaster Grant is still available. **To apply for the FDAF portion of the Emergency Disaster Grant, please call the FDA at 850.681.3629 BEFORE completing an online application.***

The Florida Dental Association Foundation provides financial assistance to Florida dentists affected by a disaster. Assistance provided through the FDA Foundation's Disaster Fund include emergency grants for immediate personal needs such as food, water, clothing, emergency shelter, medications, etc.

### **To apply:**

Grant amounts are determined based on completion of an application and available funds. The FDA Foundation has authorized the use of the ADA Foundation (ADAF) Emergency Disaster Assistance Grant Program Application as the official application for FDA Disaster funds. Using a single application saves time and offers convenience in time of need. You may access the ADAF application [here](#). **The applicant will need to check the box within the ADAF application to allow the ADAF to share the completed application with FDA Foundation.**

### **Grant Awards:**

The ADAF grants may not exceed \$2,000 per dentist. FDA Foundation grants may not exceed

\$1,500. Applicants are eligible to receive awards from both organizations.

**Questions or Assistance:**

Please contact R. Jai Gillum at [rjaigillum@floridadental.org](mailto:rjaigillum@floridadental.org) for questions or additional information. You may also call the FDA Office at 800.877.9922. We will be happy to assist in any way possible.
