

2022-2023 ANNUAL REPORT

foundation
FLORIDA DENTAL ASSOCIATION
SM

FROM THE PRESIDENT

As the philanthropic arm of the FDA, the FDA Foundation has become a beacon of hope for both the dental profession and the people and communities it serves. The past year has presented our Florida communities and dental professionals with challenges, however the faithfulness of members of the FDA Foundation has continued to promote and provide dental healthcare for all Floridians.

The FDA Foundation is committed to providing access to oral health care for all Floridians, with a focus on the uninsured and underserved members of each community. By alleviating the oral

health disparities in our state, our philanthropic efforts will not only restore smiles and build confidence but will also enhance a patient's overall health and quality of life.

The FDA Foundation is honored to support three preeminent programs that bring oral health care to those in need: *FLA-MOM*, *PDC* and *DDS*. These programs bring together dental professionals and volunteers by providing free dental treatment to vulnerable individuals who are unable to afford the care they desperately need. These core programs embody the spirit of compassion and solidarity within the dental community. They connect dental providers with patients who would otherwise have limited access to care.

Your support is instrumental in sustaining these vital programs and expanding their reach to those who need them most. It is an honor to **GIVE, LEAD** and **VOLUNTEER** with our FDA members and community partners. Together, we can ensure that dental care remains accessible and equitable for all Floridians.

With sincere gratitude,

A handwritten signature in black ink, appearing to read "Dr. Rick Stevenson".

Dr. Rick Stevenson

President, Florida Dental Association Foundation

FINANCIAL REPORT

FY 2022-2023

With a mission of promoting dental health for all Floridians, the FDA Foundation continues to grow and increase its impact on patients and public awareness of oral health.

PROGRAM EFFICIENCY:

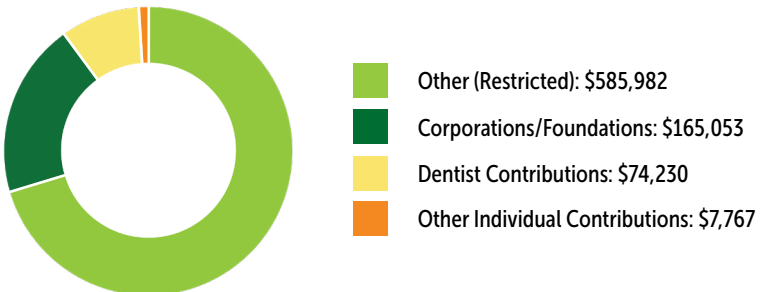

For every dollar donated, the FDA Foundation provided \$1.08* toward charitable programs and services.

\$893,063

WAS PROVIDED TO CHARITABLE PROGRAMS

**due to additional support provided to dentists impacted by Hurricane Ian*

2022-2023 REVENUE

2023 FLORIDA MISSION OF MERCY

The signature philanthropic program of the Florida Dental Association (FDA) Foundation, *Florida Mission of Mercy (FLA-MOM)*, is the state's largest charitable dental clinic that provides care to any patient at no cost, with the goal of serving the underserved and uninsured in Florida – those who would otherwise go without care. Since its inception in 2014, *FLA-MOM* has provided \$14.67 million in donated services to 13,816 patients, with the help of 12,854 volunteers.

The 2023 *FLA-MOM* was held Feb. 24-25 in West Palm Beach at the Expo Center at the South Florida Fairgrounds. More than 2,000 volunteers provided \$1.85 million in donated care to 1,327 patients. The clinic provided oral health education, dental evaluations, oral cancer screenings, X-rays, extractions, fillings, root canals, cleanings and immediate dentures and partials. In addition, *FLA-MOM* provided a resource guide of local and regional community dental programs and clinics for patients to access routine care. Patients attending the clinic were encouraged to participate in the *FLA-MOM Impact Study* to gather information about their dental and general health, reasons for delaying dental care and their use of local hospital emergency departments for their pain.

The 2024 *FLA-MOM* will be held in Lakeland May 30 – June 1. Please consider volunteering your time and resources to provide dental care to those in need. Scan the QR code to register!

DONATED DENTAL SERVICES

Donated Dental Services (DDS) is a program jointly funded by the FDA Foundation and Dental Lifeline Network • Florida. *DDS* provides access to comprehensive dental care for people with disabilities or who are elderly or medically fragile and cannot afford treatment. Since 1997, Florida *DDS* has provided \$11.1 million in donated dental care to 2,182 patients.

DISASTER RELIEF

Florida dentists impacted by a disaster can apply for emergency disaster grants to help meet their personal needs such as food, water, clothing, emergency shelter, medications etc. In September 2022, Hurricane Ian made landfall in the Fort Myers area as a Category 4 Hurricane, devastating Southwest Florida. To supplement the Disaster Fund, the FDA Foundation received \$17,470 from individuals and \$149,000 in donations from Florida Dental Association Districts and other state dental associations to help meet the needs of dentists affected by the hurricane. In response to the impacts of Hurricane Ian, the FDA Foundation processed **209** disaster grant applications and provided **\$313,500** in grant funds.

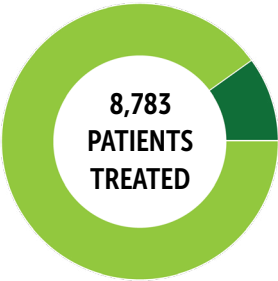

PROJECT: DENTISTS CARE

Project: Dentists Care Inc. (PDC) is a statewide network of organizations that offer preventative and restorative dental care to those in greatest need. The FDA Foundation maintains a comprehensive list of dental access programs throughout the state in the *Project: Dentists Care Resource Guide*. These programs are eligible for annual grants from the FDA Foundation. Over the last eleven years, *PDC* programs have provided treatment to 75,565 patients, resulting in more than \$45 million in donated dental care.

2022-2023

- Community Volunteers: 49%
- Dentists: 23%
- Dental Assistants: 18%
- Hygienists: 10%

- Adults treated: 90%
- Children treated 10%

VALUE OF CARE
\$15.4 MILLION
